To Whom It May Concern:

In all our many years of purchasing real estate and working with large national and local brokerage firms, we have never experienced anything remotely near the level of confidence and peace of mind as we have experienced working with Rosenthal Land Advocates. Before Rosenthal Land Advocates, we would have never thought it possible to have a 100% trust, confidence and peace of mind in a brokerage firm.

Frankly, we are still in disbelief. Our experience working with Rosenthal Land Advocates has been nothing short of magical. Mr. Rosenthal's relentless pursuit of excellence turned the all too often unsavory broker experience into something to look forward to and even enjoy! Rosenthal Land Advocate's unique storytelling business model, powered by (of all things) transparency, kindheartedness, vision and a nuanced understanding of real estate, very quickly built rapport and established trust between all parties. The results: We closed the transaction in a mere two weeks and could not be more pleased.

Credit to the Seller, Comerica Bank for, in an ever more transparent business and social environment, having the foresight to hire such an innovative and transparent brokerage firm to represent them in the public marketplace. Comerica Bank obviously understands that the key to building lasting relationships is to focus on genuinely helping people and businesses be successful.

Sincerely,
