David,

Concerning the property where my mother, aunt, sister, and I leased from your client. You did something that no other broker would have done. You took personal care of how we as tenants were treated and taken care of. Taking into consideration our mother's feelings and health you worked with integrity and sincerity. You even took into consideration our monetary needs! It has been my pleasure doing business with you. Your business practices are not of the norm. I would recommend your business to anyone including friends and family.

With all sincerity,

Paul Fultz
